# TERNA PUBLIC CHARITABLE TRUST

**Terna Public Charitable Trust (TPCT)** is a Public Charitable Trust registered under the Bombay Public Trust Act (Registration No — E 91 dt. 30/9/1980) in Terna Nagar, Osmanabad, Maharashtra, India. TPCT was established on 30th September 1980 to provide educational and health services to all sections of society. From its humble beginnings in 1980, the Trust today has grown into an educational colossus, imparting education in multiple streams to more than 10,000 students. TPCT continuously organises various Social & Medical programs in different parts of the state. To meet the objectives, TPCT has established its reputation as a landmark higher education and learning institution in Navi Mumbai, Aurangabad and Osmanabad region. As a trust, we aim to provide specialized training with experienced staff, excellent infrastructure, and practical industry exposure to create dynamic world-class professionals. The TPCT's ethos is marked by selfless service and the spirit of indigenous enterprise. These values permeate all the institutions set up by the TPCT and are the guiding principles for all of them.

# CHAIRMAN TERNA PUBLIC CHARITABLE TRUST

*students thrive in their professional pursuits following a top-tier education within such a vibrant academic milieu. I extend my heartfelt appreciation to the Dean and the college's esteemed faculty for their concerted endeavours.*

*Furthermore, I extend my felicitations to the students for their outstanding achievements, both on the university stage and within their respective specialist conferences. I am confident that we will continue to establish such significant milestones by aspiring to ever greater heights in the pursuit of excellence across all facets of dental education. This annual report stands as a splendid testament to the creative prowess of both our students and faculty. I extend my warmest congratulations to the entire team for their unwavering dedication and tireless efforts in this endeavour."*

*President  
Dr. Padmasinha Patil*

TERNA ENGINEERING COLLEGE  
Nerul, Navi Mumbai - 400 706

# PRINCIPAL TERNA ENGINEERING COLLEGE

*Dr. Lakshmappa Ragha is a Senior Professor and has been working as Principal at Terna Engineering College, Nerul, Navi Mumbai. He was a research scholar at BARC, Mumbai from 2007 to 2011 for his research study on "Technological, Environmental and Biological aspects of Microwave and communication fields". His primary research interest is Microwave bioeffects and numerical simulation of radiating systems. He received his Ph.D. Degree in Electronics Engineering from University of Mumbai in 2011 and has been involved in teaching and administration.*

*He has 33 years teaching experience at different institutions. His teaching expertise covers a wide range of core subjects. He has huge enthusiasm for his subjects, and always tries to focus on a 'roadmap' for each course to encourage learning while being as organized as possible for all classes. He is a member of many professional societies and supervised a number of research projects at graduate, post graduate and Doctoral studies. He has published more than 40 research papers in international journals and conferences.*

TERNA ENGINEERING COLLEGE  
Nerul, Navi Mumbai - 400 706

Principal  
Dr. L.K. Ragha

## VISSION

*To deliver value-added quality education to the aspiring students, meeting stringent requirements of the changing technology, industry, business and society as a whole.*

## MISSION

*To provide an environment of academic excellence and adopt appropriate teaching – learning processes to produce competent and skilled engineers to meet global challenges.*

PRINCIPAL  
TERNA ENGINEERING COLLEGE  
Nerul, Navi Mumbai - 400 706

## OUR VALUES

*We are committed to imparting excellent education, employing meticulous methods that strive to enlighten the students to be industry ready.*

*We endeavour to excel in education by improving the study programmes that can provide students with an experience, to obtain the best outcome, and also make it memorable and enjoyable at the same time.*

*We are inspired to make students reach their maximum potential by participating in intellectual activities to help improve.*

*We continuously strive to lead our students to the right path, to their best tomorrow.*

# ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

## Introduction

Established in 2021, the department of Artificial Intelligence & Data Science (AI & DS) had an initial intake of 60.

It is approved by AICTE, DTE and affiliated with the University of Mumbai. The department has been set up to train students and conduct research in the fields of Artificial Intelligence & Data Science. The department consists of highly qualified faculty members with doctoral degrees. The department aims to teach the students as leaders in AI & DS with world-class infrastructure, curriculum and comprehensive hands-on experience through industry connect programs. The department's goal is to ensure academic excellence in students with wide exposure to research and career opportunities. The ultimate goal is to nurture our students' academic excellence, industry exposure and outstanding career opportunities.

The AI & DS department is a member of one of the profound professional bodies called the Computer Society of India (CSI). It's a setup for conducting technical activities that help in the all-around development of students. The department is committed to achieving the highest order of excellence in the field of computer engineering. The AI & DS department has also initiated the process of becoming a member of the Indian Society for Technical Education (ISTE). Some of the faculty members are also members of "The Society of Data Science," and we plan to conduct seminars and workshops for students to enhance their knowledge.

## Vision

Envisioning academic distinction in Artificial Intelligence and Data Science within the academic sphere includes fostering industry collaborations, interactive learning, diversity, and significant societal influence.

## Mission

Empower students and researchers to become leaders in the fields of Artificial Intelligence and Data Science by delivering cutting-edge education, fostering interdisciplinary collaboration, promoting ethical practices, cultivating industry partnerships and driving innovation for positive societal transformation.

## Head of Department's Message

The Department of Artificial Intelligence(AI) and Data Science is committed to developing engineering students with competent, technical, managerial, and social skills that will contribute to their professional growth. The department emphasizes all the important aspects of computers, such as Programming, Algorithm Design, Operating Systems, Artificial Intelligence, Machine Learning and many more.

Particular focus is given to subjects like Fundamentals of Data Science, Data Pre-processing, Data Wrangling, Data Analytics, Data Visualization, Data Mining etc. These will help the students acquire the required knowledge and

**PRINCIPAL**  
**TERNA ENGINEERING COLLEGE**  
Nerul, Navi Mumbai - 400706

expertise to start their careers as data analysts, data engineers, data scientists, and many other opportunities in the current industry. The department also schedules many seminars, conferences, certifications, and training sessions to help students develop themselves globally.

The department also takes the initiative to improve the students' soft skills, analytical capabilities, and verbal communication skills so that they can confidently face the competition in the corporate world. The excellent infrastructure and experienced faculty team are dedicated to strengthening effective teaching-learning processes, which ensures quality education.

## SWOT Analysis

### Strengths

1. Good faculties
2. Lab with sufficient PC configuration

### Weaknesses

1. Very less Infrastructure
2. Lack of other resources

### Opportunities

1. To grab the AI & ML related industry trends in the market by enhancing the knowledge
2. Development of Mobile/Web based apps through mini/major projects where Machine/Deep Learning concept can be used.

### Challenges

1. To prepare the students ready for the industry.
2. Get sufficient resources for the students
3. Less number of faculties

# ELECTRONICS & TELECOMMUNICATION ENGINEERING

## Introduction

Electronics and Telecommunication Engineering department was established during the inception of the institute in 1991. The department offers Bachelor of Engineering (BE) degree (Undergraduate) & Ph.D. Program in Electronics & Telecommunication Engineering with intake of 120 & 10 respectively. A highly qualified and experienced faculty is the strength of the department. Department has 5 PhD and 13 post graduate faculty. We have a well trained & highly motivated staff. In addition to the teaching assignments, some faculty members are engaged in research work which is actively supported by the college. The department has more than 400 students across SE, TE and BE classes. The primary objective of the department has been to impart quality education and cutting edge technology training to students. It also aims to provide holistic environment for overall personality development, and to bring to full blossom the potential in every student. The Department of Electronics & Telecommunication is one of the most reputed in Mumbai University, well known for both its academic excellence and innovative approach. It has been successfully organizing seminars /workshops/industrial visits for the benefit of the students. Stalwarts from the industry are frequently invited to conduct seminars on various subjects. The department has an active student chapter of IETE, under which students organize and participate in various technical activities.

## Vision

To create self-motivated quality Engineers and technocrats to contribute effectively to value based society and in the field of science and technology.

## Mission

To catalyze and inspire young minds for innovative thinking and creativity and to acquire knowledge and professional ethics essential for facing global challenges in rapidly changing technologies to serve the society and industry effectively.

**PRINCIPAL**  
**TERNA ENGINEERING COLLEGE**  
**Nerul, Navi Mumbai - 400 706**

### Head of Department's Message

The rapid growth of technology in Electronics and telecommunication engineering viz, semiconductor industries, 5G-6G technology, Optical to quantum communication etc.... has raised many opportunities for our budding telecom. engineers. We believe in making the best use of it by providing them academic support and required platform.

This requires continuous learning through novel approaches, supported with research and development works in the areas of Electromagnetic theory, Optical Communication, Image Processing, Communication Networking, Microcontroller Embedded systems, IoT and DVLSI etc. Our department's vision and mission reflects this by producing knowledgeable and committed technocrats to serve our country and contribute to the value based society. The hard work, sincerity and perseverance are keys to success. Through our practices we strive to impress our students to inculcate these values and support the mission of TEC. I welcome whole heartedly our alumni to join hands in supporting our endeavors by all means of interaction, Collaboration and Start-ups. Our doors are always open to Universities, research organizations, industries and utility companies to collaborate with us.

## Activities and Achievements of the Departments

Faculty and Students are actively involved in curricular and co-curricular activities. Out of the research done by faculty, the department has 11 research papers published in peer reviewed journals 80 % of which are Scopus indexed journals.

Faculty are also involved in various university activities. One of the faculty is Member, Board of University, University of Mumbai. Most of the faculty are involved in university paper setting of courses and result moderation.

Students are actively involved in project competitions and hackthons.

Sr. No.	Details Of Type/Topic Of Activities	Speaker's	Date Of Conduction	Centre/ Completion Status	No Of Participants
1	Seminar on Awareness of how to Enroll for Military and Defence	Captain R. S. Tope 9372425879	20/10/2023	Offline/ Conducted	47
2	Seminar on AI & Robotics	Mr Pranit Bhoir	March,2024	Offline /Conducted	61
3	Seminar on What Is New In Cyber Security?	Dr. Shravani Shahapure, Head Of Cryptography And Quantum Computing- Deloitte,	12/02/2024	Offline /Conducted	32
4	Workshop on Ethical Hacking.	Mr. Yogesh Hudale, Director- Tele Networks Vashi	15/02/2024 to 19/02/2024	Offline /Conducted	47

## Capture from Events

## SWOT Analysis

### Strengths

The department boasts a team of highly proficient professors with experience ranging from 10 to 38 years across diverse areas of Electronics and Telecommunication. We offer state-of-the-art laboratories equipped with specialized facilities such as Vector Network Analyzers (VNA) and Optical Links. Our dedicated faculty supports research and development through the Terna Center of Excellence for Electromagnetics, which supports a wide array of wireless and optical communication projects. Additionally, we provide access to advanced software tools, support high-impact research, and maintain a strong record of patents. Our faculty includes 04 PhD guides, 09 PG guides, a Board of Studies (BOS) member, and a high volume of publications with over 2000 citations.

### Weaknesses

Lack of funding from national organizations for nurturing advanced research.

The Industry Institution Interface can be enhanced further.

**PRINCIPAL**  
**TERNA ENGINEERING COLLEGE**  
 Nerul, Navi Mumbai - 400 706

### **Opportunities**

To be employable in 5G and beyond network industries

Capacity to work in the multidisciplinary area and excel

To contribute to the value based society in terms of research, resource persons, and consultants

### **Challenges**

Urgent measures are needed to review the course content to make them relevant to the present-day industry requirements.

Participation of Alumni and their contribution to the development of department

# Computer Engineering

## Introduction

The department of Computer Engineering was established in 1991 with initial intake of 60 and later it increased to 180. It is approved by AICTE, DTE and affiliated to University of Mumbai and accredited by the National Board of Accreditation (NBA). The department also has PG programme (ME) & Ph.D. Program with the intake of 18 and 10 respectively. Laboratories of the department are well equipped with the latest hardware and software.

We have experienced and highly competent faculty members with excellent academic credentials and expertise in all core and emerging courses of computer engineering. Faculties are always motivated to upgrade their skills and knowledge through various training and certification programs.

Students at the department are always encouraged and supported to participate in various technical and extra curricular activities at regional, National and International level. We have an enthusiastic team of staff and students for co-ordination and execution of the activities throughout the year under Computer Society of India (professional Body). Every year team of young engineers from department exhibit their advanced and technical skills in Smart India hackathon and many such national or international competitions.

The department is committed to achieve the highest order of excellence in the field computer engineering.

## Vision

To produce trained computer professionals who can successfully meet the demands of academia, IT Industry and research by building a strong teaching and research environment.

## Mission

To provide industry and research oriented quality education to UG and PG students and train them to apply this knowledge for solving real world problems and make them competitive in the ever-changing and challenging global work environment.

## Head of Department's Message

It gives me immense pleasure to lead the Department of Computer Engineering, the most wanted programme by the students. The modern era has witnessed a rapid development in Computer Engineering, both in hardware and software. Each year, new advancements are exposed, like Machine Learning, Block Chain, Data Science, Social Media Analytics.. The students of Computer Engineering are highly needed by the society.

The department of Computer Engineering was established in 1991 with initial intake of 90 and later it increased to 180. It is approved by AICTE, DTE and affiliated to University of Mumbai and accredited by the National Board of Accreditation (NBA). The department also has PG programme (ME) & Ph.D. Program with the intake of 18 and 10 respectively. Laboratories of the department are well equipped with the latest hardware and software.

## Students achievements:

- Ritvik Salian - 3<sup>rd</sup> position in football and 2<sup>nd</sup> position in long jump.
- Rahul Nair - Secured 3<sup>rd</sup> place in Quasar 2.0 held on 16<sup>th</sup> and 17<sup>th</sup> march 2023.
- Swaraj Chaudhary - **Winner** of Table Tennis Tournament (Boys) at Sportec 2024
- Shakti Seniyar - Secure 1<sup>st</sup> position in National Level Project Competition in AVALON-2024.
- Hussain Champawala - Secured 1<sup>st</sup> position in National Level Project Competition in AVALON 2024.
- Shreeram Sawant - Secured 3<sup>rd</sup> place in Quasar 2.0 held on 16<sup>th</sup> and 17<sup>th</sup> march-2023

## SWOT Analysis

### Strengths

1. Well-qualified and experienced faculty members
2. Faculties with Publication and Patents Granted
3. Active students' participation in national level hackathons and project competitions
4. Good placement ratio
5. Good admission ratio
6. Students paper publication ratio is good

### Weaknesses

1. The Department and Industry Interface can be enhanced further.
2. Industry based Major projects need to be enhanced further.
3. Lack of departmental structured entrepreneurship promotional activities.
4. Participation of departmental alumni in the overall development of the department to be improved.

### Opportunities

1. College has good fame in the city as a good engineering college in Mumbai so can attract students for admission to core branches.
2. Good sport facilities are provided
3. By providing good facilities and resources research activities can be encouraged.

### Challenges

Retention of faculties.

# Information Technology

## Introduction

In today's information era people need information anywhere and anytime. The creative thinking and thrust for information laid down the foundation for the Information Technology Department. The establishment of IT was the dawn of innovative applications and touched nearly every field in every part of the country. Its sheer presence offers innumerable job openings and has become the cornerstone of the engineering fraternity.

Terna Engineering College enriched IT Infrastructure for students to build IT skills, apply innovative ideas, implement real world projects, and make them competent in the IT Sector. The Department is reputed in Mumbai University for both its academic excellence and innovative approach. The Faculty forms the nerve of the department and has been successfully organizing seminars, workshops, guest lectures, internships, real-time projects, and industrial visits for students to keep them updated with the real world.

## Vision

To be a centre of excellence in the field of Information Technology Education and Training.

## Mission

To educate and train the students to acquire professional competencies by applying fundamental knowledge to solve real time problem which will serve need of industry and society.

## Head of Department's Message

The Department of Information Technology was established in 2002. The department offers Bachelor Degree, Master Degree and Ph. D in Information Technology. The Master Degree in Information Technology was approved in 2011-2012 academic year. Ph. D in Information Technology was approved in 2014-2015 academic year.

Department is NBA Accredited. Department has collaboration with Industries for consultancy projects, and currently two consultancy projects ongoing. Department has got funded project grant of Rs. 29 lacs form DST in 2022-2024 respectively.

The graduates have found remarkable placements in prestigious companies like Microsoft and many students have obtained for higher studies. Our vision of department is providing center of excellence in the field of Information Technology Education & Training. Department has Professional Bodies Students Chapters like CSI,ISTE etc.

Our goal is to provide students with a balance of training and practical experiences that will enable them to serve a problem solving ability to serve Industry and Societal needs. In our department students are nurtured to become best Software Professionals as Project Managers, System Analysts, and Network Administrator or Team leaders in Industry or become Entrepreneurs in their own innovative way. We are having hard-working students, a young and dynamic faculty, whose expertise spans the range of disciplines in Information Technology stream and a very healthy work-culture, are the basic elements that comprise the Department of Information Technology, the hub of the Institute's Academia. We are pioneer of creating Apple Lab with 21 iMac PC, iPad, Mac Laptop and iPhone, Blockchain and Cloud Setup in Terna Engineering College. We hold firm belief in our ability to succeed, and we nurture an attitude of self-reliance, confidence, commitment and responsibility to the motherland that we are to

PRINCIPAL

Nerul, Navi Mumbai - 400 706

serve. The Department of Information Technology believes in building career, enriching minds and provides a remarkable experience that lasts a life time. I am confident that the students of the department would justify their credibility by showing a high level of professional competence in their respective areas.

## SWOT Analysis

### Strengths

1. Total five PhD faculty members in the department and well qualified experienced faculty members.
2. Good Faculties and students Publication.
3. Funded research projects in the department
- 4 Active students' participation in professional bodies and Technical events.
5. Active participation of faculty members in various committees at University of Mumbai.

### Weaknesses

1. The Academic and Industry collaboration can be enhanced further.
2. Lack of Higher Education and entrepreneurship motivation activities.
3. Lack of Alumni involvement in the overall development of the department to be improved.

### Opportunities

1. Good sport facilities are provided
2. By providing good facilities , resources for innovation and Hackathon activities can be encouraged.

### Challenges

1. Improvement in Placement with higher-end packages.

# Mechanical Engineering

## Introduction

Mechanical Engineering started in 2014 with the intake of 60 seats. The academic team consists of 13 Teaching Faculty members, 04 Technical staff and 01 supporting staff. Two faculty members having PhD qualification. Total student strength of 211 (SE to TE).

Mechanical Engineering is one of the oldest and core branches of engineering. It is rapidly spreading its wings in an interdisciplinary field. Hence, in near future, an increase in the demand of skilled Mechanical Engineers in different sectors/industries is expected. Our goal for undergraduate students is to give them a quality education with the emphasis on Project Based Learning which will be useful to the Industry and Society at large.

The department has well equipped laboratories as per the curriculum with high-end software used in industry. The Machine Shop has received a Center of Excellence certification from Godrej & Boyce. The CNC lab has two Industrial Grade CNC Lathe and Milling Machines. Our students bring laurels by succeeding in various International/National technical competitions. We have a strong culture of encouraging students to understand real life challenges through activities like SUPRA, GO KART etc. The department has active student chapters of professional bodies like SAE, ASHRAE, and MESA.

## Vision

To deliver value based quality education to achieve excellence in the field of mechanical engineering to meet technological challenges.

## Mission

1. To create an environment that stimulates students to reach their highest potential in academics.
2. To impart value based education for imbining skills to solve real life problems.
3. To strengthen the association with industry and research organizations to enhance innovation and entrepreneurship.

## Head of Department's Message

A hearty welcome to the Department of Mechanical Engineering at Terna Engineering College, Navi Mumbai. Mechanical Engineering started in 2014 with the intake of 60. Later on, it was increased to 120 seats in the year 2017. The department's vision is to offer value based education and pursue excellence in the field of Mechanical Engineering.

The department has well qualified and dedicated faculty. The department strives to impart knowledge and training of the highest standard. The objective of the department is to prepare students for a successful career in Industry, Research and Academics to meet the needs of growing technology. Our efforts are to develop the ability among students from concept generation to product design and development.

**PRINCIPAL**  
**TERNA ENGINEERING COLLEGE**  
Nerul, Navi Mumbai - 400 706

We encourage the students to work as members of a team on multidisciplinary projects. The Department of Mechanical Engineering provides students with a sound foundation in the mathematical, scientific and engineering fundamentals necessary to formulate, solve and analyze engineering problems and to prepare them for higher studies as well as research.

For the overall development of the students; Department of Mechanical Engineering is associated with the professional bodies such as SAEINDIA, ISHRAE, and ASHRAE. We have an active Mechanical Engineering Students Association (MESA). These clubs organize various activities such as seminars, workshops and competitions to provide knowledge about cutting edge technology to the students. This helps the students to develop skills like Leadership, Team Building, Managerial, and Work ethics with Lifelong learning. Our Students participate in various State and National level technical competitions and win prizes. Students showcase their talent in various sports and intercollegiate events and win prizes. Our graduates are working in various Multinational Companies, Government and Research organizations. The Department has an active Alumni Association that helps in exchange of professional knowledge, seminars, workshops & training courses.

# MECHATRONICS ENGINEERING

## Introduction

Our department at Terna engineering college started in 2015 and is the first department to offer a bachelors degree in Mechatronics Engineering, among the state university affiliated colleges in Maharashtra.

Mechatronic systems integrate electrical/electronics, mechanical, and computer science/IT disciplines, permeating everyday life through products like autofocus cameras, electronic washing machines, and printing devices. Modern vehicles feature mechatronic components such as electric power steering and engine management systems, while advanced systems like medical scanners and surgical robots are becoming increasingly prevalent.

Mechatronics not only enhances product design but also revolutionizes intelligent manufacturing with servo controllers optimizing process parameters and CNC machines improving flexibility and quality in factories. This interdisciplinary field empowers engineers to innovatively tackle real-world challenges across diverse industries.

## Vision

To pioneer engineering education by inculcating an interdisciplinary approach to system design and cultivate engineers and technology managers for the future industry and society.

## Mission

To enable our students to apply analytical skills and technical knowledge for finding creative and optimal solutions to real life problems using an interdisciplinary approach.

## Head of Department's Message

I am delighted to share exciting updates from the Department of Mechatronics Engineering at Terna Engineering College. We have made significant strides in setting up our laboratory facilities to align with the latest advancements and industry demands.

Our Virtual Instrumentation Lab features state-of-the-art equipment utilizing LabVIEW, enabling students to delve into advanced techniques in data acquisition, analysis, and control systems development. Our Pneumatic and Hydraulic Lab has kits from SMC, offering hands-on experience in designing and troubleshooting pneumatic and hydraulic systems, crucial for modern industrial applications. Our Instrumentation and Control Lab comprehensive training in switches, valves and control systems, equipping students with essential skills for precision engineering. Our CNC Lab has been setup with industrial CNC machines from Jyoti and a Digital CNC Simulator from DoNC, allowing students to master computer numerical control programming and operation in a realistic manufacturing environment.

Additionally, department faculty have contributed to the introduction of a new syllabus of Mechatronics Engineering at Mumbai University starting in 2019, designed to incorporate the latest industry trends and technological advancements. This updated curriculum will empower our students with the knowledge and skills required to excel in the dynamic field of mechatronics engineering.

### SWOT Analysis

#### Strengths

- **Advanced Laboratory Facilities:** The department boasts state-of-the-art labs such as Virtual Instrumentation using LabVIEW, Pneumatic and Hydraulic Lab with SMC kits, Instrumentation and Control Lab, and a CNC Lab equipped with industrial machines and simulators.
- **Updated Curriculum:** The introduction of a new syllabus in 2019 reflects responsiveness to industry trends and technological advancements, ensuring students receive relevant and up-to-date education.
- **Experienced Faculty:** The department has a team of experienced and knowledgeable faculty members who bring industry experience and academic expertise to the classroom.
- **Industry Collaboration:** Partnerships with industry leaders like B&R, SMC, Jyoti, and DoNC indicate strong industry collaborations, providing students with exposure to real-world applications and cutting-edge technologies.
- **Placement record** of placing students in reputed organizations like B&R Automation, Godrej, Mahindra etc.

**PRINCIPAL**  
**TERNA ENGINEERING COLLEGE**  
Nerul, Navi Mumbai - 400 706

- **Atmosphere promoting innovation** that has enabled students to excel in both corporate and academic contests earning them several accolades.

### Weaknesses

- Lack of awareness among the students and employers regarding the value of a Mechatronics Engineering Degree.
- Ensuring consistent availability of resources, such as lab materials, software licenses, and maintenance of equipment, is a challenge.

### Opportunities

- Branch has unique appeal and is available in less than 20 other colleges in the state of Maharashtra.
- **Research and Development:** Encouraging research initiatives could enable innovation within the department, potentially leading to patents, publications, and collaborations with industries and research organizations.
- **Skill Development Programs:** Offering specialized workshops, certification courses, or collaborations with industry for internships could enhance students' practical skills and employ-ability.
- **Industry Partnerships:** Strengthening existing partnerships and establishing new ones can facilitate guest lectures, industry visits, and joint projects, enriching the learning experience.

### Challenges

- **Competition:** The presence of other well-established engineering institutions in Maharashtra could pose a challenge in terms of attracting top-tier faculty and students.
- **Technological Obsolescence:** Rapid advancements in technology necessitate continuous updates to curriculum and infrastructure to ensure relevance and competitiveness.

# ELECTRONICS ENGINEERING

## Introduction

The Electronics Engineering Department, since its inception in 1991, has achieved great recognition in the field of technical education. The department offers B.E. in Electronics Engineering, a four-year degree program with an intake of 60 students. The department also runs a research program (Ph.D. Electronics) with an intake of 10 research scholars. The National Board of Accreditation accredited the department in 2016 and re-accredited in 2019. It comprises highly qualified and professionally skilled faculty members with a good record of published work. The faculty members organize training programs in the various areas of engineering such as embedded systems, VLSI and networking.

The department keeps up to date with the continuous changes in the field of technology and encourages the students to keep track of the constantly changing world. The faculty members and students are involved in organizations like the IEEE, IETE. Projects done by department students are appreciated at various national level competitions and exhibitions like Robocon. Experts from the industry are frequently invited to conduct seminars on topics on various subjects.

## Vision:

To be recognized by the society at large as an excellent department offering quality education in Electronics Engineering.

## Mission:

To continuously strive for the total development of students by educating them in "State-of-the-Art" technologies & helping them to imbibe professional ethics and Societal Commitments, so that they emerge as competent professionals to meet the global Challenges.

## Head of Department's Message:

As the Head of the Department of Electronic Engineering, I am delighted to share some insights about this exciting and enhancing field.

Electronic Engineering is a highly diverse and ever-evolving field that deals with the design, development, and maintenance of electronic circuits and systems. The field's range is extensive, encompassing anything from the creation of consumer electronics, telecommunications networks, and medical devices, to the design of microprocessors and semiconductors. The world has been revolutionized by electronic engineering, and its applications are ubiquitous in our daily lives.

The versatility that electronic engineering offers is among its many noteworthy benefits. Graduates of this program can pursue a range of careers in various sectors, including research and development, manufacturing, telecommunications, aerospace, and the automotive industry. Furthermore, electronic engineering graduates can also

PRINCIPAL  
TERNA ENGINEERING COLLEGE  
Nerul, Navi Mumbai - 400 706

opt for a career in academia, where they can contribute to the development of new technologies and mentor future generations of engineers.

The job opportunities in electronic engineering are vast and varied. Due to the increased use of electronic systems in all sectors, there is a high demand for electronic engineers not only in Indian industries but foreign industries as well. Electronic engineers can work in design and development of electronic systems, manufacturing, testing and maintenance of electronic equipment, and in research and development.

In conclusion, Electronic Engineering is a highly sought-after field that offers significant job opportunities and career growth. As a department, we are committed to providing the best possible education and training to our students to ensure they are ready to tackle the challenges of this dynamic and promising field.

## 2. SWOT Analysis

### Strengths:

1. Highly Experienced and Well-qualified faculty members
2. Faculty have Publication in reputed journals and published Patents
3. Well established department
4. Students participate in national sports competitions and academics.
5. Faculty pursuing Ph. D.

### Weaknesses:

1. Lack of Industry Institute Interaction
2. Students with low CET and JEE score
3. Lack of entrepreneurship promotional activities.
4. Lack of Consultancy work
5. Participation of alumni in the overall development of the department is missing.

### Opportunities:

1. College is one of the well-established engineering colleges in Mumbai so can attract students with higher CET and IEEE Score for admission.
2. Department is well established with good infrastructure hence students will get more opportunities to gain quality education
3. Looking at the current trend and growth in electronics and Semiconductor Industry the possibilities of placement are increased for Electronics Engineers.

### Challenges:

1. Getting students admission with good CET and JEE score.
2. Students opt for Computer related branches and need to be attracted to core engineering

**PRINCIPAL**  
**TERNA ENGINEERING COLLEGE**  
 Nerul, Navi Mumbai - 400 706

branches like Electronics Engineering.

3. Involvement of Industry Experts in Curriculum development.
4. Improving students' fundamental Knowledge to attract placement in core industries.

**TERNA ENGINEERING COLLEGE**  
Nerul, Navi Mumbai - 400 706

# BACHELOR OF DESIGN

## Introduction

The Bachelor of Design (B. Des.) program at Terna Engineering College, Navi Mumbai, is strategically designed for highly creative and motivated students who aspire to be pioneers in the Design industry. Our program commenced in 2022 with a carefully selected intake of 30 students and continues to witness a surge in applications.

The program is geared towards practical and applied research which accelerates design related knowledge, with approaches to defining and solving problems resulting in high-quality outcomes. The program is four-years long which offers building the foundation of design in year one and developing expertise in your chosen field in years 2 to 4. Considering we build a thorough foundation in design in year one, our program is also open to students from arts and commerce backgrounds. We can facilitate their admission process given they appear for the CET exams with promising results that meet our requirements.

We also ensure that all our students, including the ones from arts and commerce backgrounds, are given unconditional support throughout the program and are determined to assist them to our maximum ability. We foster creativity and explorative experiences for students in order to enable businesses and industries to overcome traditional and old-fashioned ideas. Design has a multi-faceted application in the development of cities, buildings, transport, bridges and landscapes to name a few. Designers are innovators who enhance the way we live and interact with the world around us. Our department welcomes you to the world of learning design in an enriching environment!

## Vision

To aspire to lead in the field of design education, preparing innovative, environmentally and socially responsible citizens who positively impact society.

## Mission

1. To empower students to address concerns of the 21st century and make them global design professionals.
2. To encourage students by offering theoretical and practical Design knowledge in diverse areas along with commitment to society.
3. To enable students to handle the complexities of modern requirements and encourage exploration, innovation and creative experimentation in shaping the living environment.

## Head of Department's Message

I proudly welcome you to the Department of Design at Terna Engineering College, Navi Mumbai. As The Head of the Design Department, I take a privilege to invite you to the world of creativity in Design, where we provide technologically advanced resources for a fulfilling learning experience. We have established ourselves as one of the few, most recognised departments in the state of Maharashtra through our state-of-the-art infrastructure and

**PRINCIPAL**  
**TERNA ENGINEERING COLLEGE**  
Nerul, Navi Mumbai - 400 706

facilities. Unlike other universities, our course is a four-year intensive program which focuses on varied designs including industrial design.

The courses offered by the Design Department will equip the designers with holistic knowledge and equated perspective of designing. The ultimate aim of the courses is to catalyse responsible designers who will serve the country and society through innovation, expertise and research. Apart from the academic curriculum, we offer various other activities to encourage students to showcase their talent and creativity through diversified art and illustrations.

It is with immense pleasure and pride that I undertake to lead a team of intellectuals who are constantly striving to strengthen the department of design every year. Our carefully selected faculty are geared to impart their qualitative knowledge and prior experiences to facilitate engaging learning experience. They are constantly trying to transfer their skills and resources to their pupils in order to ensure they are confident to take on challenges and succeed to their best potential.

The curriculum and syllabus is designed meticulously in order to provide pragmatic skills development to blossom as a successful designer along with building entrepreneurial skills, to succeed independently. We also facilitate internship opportunities to prepare them for real-world projects and contribute to first-hand experience in the design industry. Me and my faculty, collectively look forward to admitting a pristine batch of students every academic year. Along with providing academic excellence, our campus is surrounded with enchanting flora & fauna and is bustling with sports, cultural and co-curricular activities.

- Dr. Sachin K Kamble, Ph.D. (IIT Bombay)

# Department of Civil Engineering

## Introduction

While living in a time of technological advancement and IT revolution, the field of civil engineering nevertheless adheres to its historical foundations. This area of engineering deals with all of society's and the general public's needs, such as water and shelter, bridges and roads, dams and tunnels, environmental pollution, power plants, and other industrial projects. As long as society continues to expand and develop, the civil engineering profession will continue.

The Department of Civil Engineering was established in the year 2017. Apart from academic syllabus, we provide intensive training, internships, expert talks, site visits, etc. to make the industry ready. We are associated with American Concrete Institute, Institution of Engineers (INDIA), Bentley Education, students are benefitted by these organisations by scholarships and free software licences.

## Vision

To be a Centre of excellence for imparting quality education in Civil Engineering encompassing Ethical Environmental and Economical aspects of the Society.

## Mission

To provide highly competent Civil Engineers to the society and industry with effective teaching and research experience.

## Head of Department's Message

We are working diligently to meet the objective of giving students a blend of academic and practical experiences that will enable them to meet a range of societal requirements in a professional and cost-effective manner. We adhere to a curriculum that has been approved by the University of Mumbai. The main goals of teaching and learning are to convey technical knowledge, foster problem-solving abilities, and foster the development of new technologies that may benefit society. A wide range of skill-based training courses and project-based learning are offered by the department and institute, both of which may contribute to the development of highly skilled civil engineers. The department's professors have outstanding academic, research, and professional credentials. In addition to serving on the editorial boards of national and international journals, reviewing technical articles for journals on a regular basis, and planning international symposia and conferences, a number of faculties have received prestigious awards at both the national and international levels. Our goal is to give the greatest technological solutions in line with our vision and mission, creating highly skilled civil engineers that contribute to the development of the country.

# DEPARTMENT OF GENERAL ENGINEERING

## Introduction

In the last few years there have been enormous changes in technology, opening up new challenges and opportunities everyday which have been embraced gracefully by our educational institute. The Department of General Engineering trains all students of all UG programs at first year level to strengthen their Scientific, Mathematical and Technical base.

This department has been set up in TEC since its inception in 1991. The department consists of subjects under Humanities and Sciences such as Mathematics, Applied Physics and Chemistry, Engineering Mechanics, Engineering Drawing, Basic Electrical Engineering and Communication Skills. These subjects provide the basic knowledge and skill that will help students to imbibe fundamental concepts necessary to become engineers in the core subjects. The department has inputs of 660 students from all the engineering disciplines of TEC.

We work persistently and diligently towards our Vision to become Pioneers of the modern education system by providing world class facilities to our students. To be at par with global standards of education and technology, we constantly keep upgrading our facilities, laboratories, technology and teaching methodologies.

This department has a perfect blend of highly qualified, experienced and compassionate faculty members who work on polishing every student individually to bring out the best in him. We believe in developing the overall personality of our students and make them a worthy technocrat by keeping them abreast with the latest developments in the field of technology. The state-of-the-Art facilities in Terna like huge class rooms, well equipped laboratories, well designed seminar hall, big auditorium, full edged library, computer center with latest systems, softwares and internet facilities to work with diverse cultures across the globe. The department has Learning Management Systems (LMS) to foster e-learning among students.

Finally, "Our Motto" is to inculcate best values in our students to make them the best technical employee/ entrepreneur and most importantly a good human being who will serve their best to the society and mankind.

PRINCIPAL  
TERNA ENGINEERING COLLEGE  
Nerul, Navi Mumbai - 400 706

## Vision

To deliver value added quality education to the aspiring students, meeting stringent requirements of the changing technology, industry, business and society as a whole.

## Mission

To provide an environment of academic excellence and to adopt appropriate teaching- learning processes to produce competent and skilled engineers ready to meet global challenges.

## Head of Department's Message

The First-Year Engineering Program is the entry point for all beginning engineering students. It is one of the basic and important departments to establish the important relationship between pure sciences and engineering branches.

All engineering students must complete the First-Year Engineering requirements before entering in specific departments. First year curriculum includes the subjects Engineering Mathematics, Engineering Chemistry, Engineering Physics, Basic Electrical & Electronics Engineering, Engineering Graphics, Engineering Mechanics, Basic Work-shop Practices, C programming and Professional Communication & Ethics. The First-Year Engineering Program provides students with a firm foundation and initial understanding of engineering and career options.

This department is furnished by well-equipped laboratories ,Computer center, Language Laboratory and Work-shop, which gear up to ensure strong fundamentals. Our aim is to teach our students with new trends, as it becomes easy for them to accommodate themselves anywhere across the industries, in today's globalized world.

## Student Strength

Class	Number of Students
FE - AI&DS	60
FE - CIVIL	60
FE - COMPUTER	180
FE - DESIGN	30
FE - ELX	60
FE - EXTC	120
FE-IT	60
FE - MECH	60
FE - MTRX	60

## SWOT Analysis

### Strengths:

The General Engineering Department seems to have a solid foundation to provide a comprehensive first-year experience for students, balancing theoretical learning with practical skills development and support programs.

**Experienced Faculty:** The presence of experience and Ph.D.-qualified faculty members suggests a strong academic foundation and potential for high-quality instruction.

**Comprehensive Facilities:** Access to labs for BEE, EM, Chemistry, Physics, and language skills ensures that students have the necessary resources to explore different facets of engineering education.

**Hands-On Learning:** Emphasizing workshop practice early on helps students develop practical skills alongside theoretical knowledge, preparing them for future engineering challenges.

### Weaknesses

1. **Resource Allocation:** Limited resources such as laboratory equipment, computing facilities, and research funding can constrain the department's ability to provide hands-on learning experiences and conduct cutting-edge research.
2. **The lack of a sufficient number of faculty members** in a first-year engineering department can significantly impact various aspects of the educational experience and the department's overall effectiveness.

### Opportunities

First-year engineering departments have several opportunities to enhance their educational offerings, improve student experiences, and contribute positively to their institution and the broader community. Here are some opportunities for first-year engineering departments:

1. **Enhanced Curriculum Development:** There's an opportunity to design and implement innovative and updated curricula that integrate emerging technologies, interdisciplinary studies, and industry-relevant skills. This can better prepare students for future challenges and careers.
2. **Hands-On Learning Experiences:** Increasing opportunities for hands-on learning through labs, projects, and internships can provide students with practical skills and industry exposure early in their academic careers.
3. **Research Opportunities:** Encouraging undergraduate research initiatives and collaborations with faculty can engage students in cutting-edge research projects, fostering critical thinking and innovation.
4. **Professional Development for Faculty:** Providing opportunities for faculty development, such as workshops, conferences, and grants for research and teaching innovations, can enhance teaching quality and promote academic excellence.

### Challenges

1. **Large Class Sizes:** Class sizes in first-year engineering courses can be large, limiting opportunities for personalized instruction, interaction with faculty, and hands-on learning experiences.
2. **Resource Constraints:** Limited funding and resources for laboratories, equipment, and facilities can hinder the ability to provide practical, hands-on learning experiences that are essential in engineering education.

## 2. TERNA ENGINEERING COLLEGE TURF / GYMKHANA POLICIES:

- Terna Engineering College (TEC) official team will be allowed to play on turf on the regular basis for 2 hours.
  - Students interested other than official team can collect the passes from gymkhana to play on turf.
  - Turf will only be allotted for 1 hour for regular students other than official team.
  - No permission will be given for any sports routine practice in the college campus other than turf.
  - Timing for TURF & Gymkhana facility are 8.00 am To 4.00 pm. Except Public Holidays & Saturday, Sunday's
  - For indoor games official teams can play for 2 hours in gymkhana and other than official team students will be permitted for 1 hour to play
  - For inter college sports competition procedure should be followed through the proper channel for the authentication of the team for participation
  - The above procedure should be followed prior to the 15 days before the event schedule.
  - Without the authentication no team will be permitted officially to participate in any inter college sports event.
  - For participating in inter college sports event the consent form is mandatory and it should be signed by the parents/guardian and should be reached to sports committee in charge before going to competition.
  - Thrice in a year individual sports event team will be permitted to participate inter sports competition.
  - No permission will be given to any Sports participation before one week of university Examination or during University Examination
11. TEC sports incharge, Gymkhana incharge & Students sports secretaries are taking care of all sports inter/intra sports activities organization & participation. All faculty sports members with coordination of above sports Member Event Incharges taking care of their individual sports events & procedure of participation of students in various sports events. All expenditure of all sports Inter & Intra event Registration, Travelling, Food, & Residence if required & TEC Sports Events Organising (SPORTEC) TEC management always takes care positively.

# AVALON-2024

*“National Level Hackathon (Hackformers) and Prototype Prodigy”*

*AVALON is the annual Technical Festival of Terna Engineering College. It provides students from different streams over the nation with a perfect stage to showcase their technical expertise. The main goal of “Hackathon (Hackformers) and Prototype Prodigy” is to acknowledge students with emerging ideas in this fascinating and expanding world of science and engineering. Thus, this festival manifests the conglomeration of talent, intellect, innovative and competitive spirit of the students.*

EQUINOX-2023, the 8th International Conference on *Engineering Research and Innovations* (ICERI-2023), was successfully organized on **September 21st and 22nd, 2023** by Terna Engineering College (TEC), Nerul, Navi Mumbai, in collaboration with the Institute for Engineering Research and Publication (IFERP). The conference served as a dynamic interdisciplinary platform, fostering collaboration among researchers, academicians, industrialists, and practitioners from diverse fields like Electronics, Mechanical, Information Technology, and Communication Systems.

Keynote addresses were delivered by distinguished speakers, including **Dr. Abdel Hamid Soliman** (Staffordshire University, UK) and **Mr. Capt. Arivananthan Munianly** (TEDx Speaker, Malaysia). The event aimed to address contemporary challenges, highlight advancements in *Automation, Robotics, and ICT*, and promote sustainable development through digital transformation and innovation.

The conference received **220 paper submissions**, of which **114 papers were registered**, including **42 papers** from Terna Engineering College and **8 international contributions**. Researchers explored critical themes such as IoT integration, artificial intelligence, machine learning, smart systems, renewable energy, and sustainability.

EQUINOX-2023 underscored TEC's academic excellence and global collaborations, further cementing its role in advancing engineering research and education. The event reinforced TEC's commitment to fostering innovation and addressing global challenges through technology and sustainable practices.

# SUMMARY

Sr. No	Content	Count
1.	Number of Class Rooms and Seminar Halls	41
2	Number of Laboratories	60
3	Number of Computers	840
4	Bandwidth of Internet Connection	300MBPS
5	Number of students	3011
6	Number of Full-Time teachers	214
7	Number of Add On courses conducted	07
8	Number of Mentors	126
9	Number of full-time teachers with PhD	27
10	Number of Seminar/Conference/Workshop conducted by the institution	30
11	Number of Research Papers in the journals on UGC website	79
12	Number of Books and chapters in edited volumes/books published and papers published in national and international conference proceeding	21
13	Number of Extension and outreach programmes (NSS)	29
14	Number of functional MOUs with institution of national/international importance, other universities, industries, corporate house etc	29
15	Number of students benefited by scholarship, freeship provided by government	1871
16	Number of students benefited by scholarship, freeship etc provided by institution/ non-government agencies	48
17	Number of students benefited by competitive exams ans career counselling offered by institute	923
18	Number of places students	271
19	Number of students progression to Higher Education	05
20	Number of students qualifying in state/national/international level examinations and state government (JAM/CLAT/GATE/CAT/GRE/TOEFL/CIVIL SERVICES)	24
21	Number of cultural events/competitions organized for students	38
22	Number of teachers provided with financial support to attend conference/workshop and professional bodies membership	Amount is 7080/ ( )
23	Number of teachers attending professional development Programmes viz. Orientation/ Induction Program/ Refresher Course/ Short Term Course	18
