

Report on the F.E Orientation Program for First-Year Students 2025

The induction program, which took place on August 20, marked the official commencement of the academic journey for the incoming first-year students at Terna Engineering College. The day began with a warm and inclusive welcome extended to all attendees, which included Principal Sir, HODs, faculty members, and the newly arrived first-year students. This welcoming atmosphere aimed to create a sense of belonging and anticipation among the students, while acknowledging the importance of the academic community.

Figure 1 Honourable Principal Sir and HODs Lighting the lamp

After the divine invocation with Saraswati Vandana and lighting of lamp, the gathering was addressed by Honourable Principal Dr. Deven Shah Sir and in his address he emphasized the importance of personal growth, intellectual exploration, and adaptability of latest technology. General Engineering HOD. R.D.Patane Sir gave more detailed understanding of the academic program

while acknowledging the mix of emotions felt by the students and the significance of their academic journey.

A parents whatsapp group was formed for smooth conduction of affairs, specially keeping the parents and all stakeholders informed of any change or update in the schedule of conducting classes. Classrooms were assigned to all divisions with a class adviser. At the end of the orientation students were escorted by teachers to respective classrooms as allotted for disciplined dispersal. All steps were taken to avoid any confusion .

In conclusion, the 3-day induction program served as an effective platform for welcoming and guiding first-year students. It emphasized not only academic pursuits but also personal growth and well-being while keeping pace with the fast changing technical environment of the present times.
